

## JUNIPER MORE DETERMINED THAN EVER

Hidden Valley brought disappointment for the Juniper Development Group driver Shaun Juniper, but he believes the young team will only improve from their Hidden valley experience.

Qualifying in 21<sup>st</sup> position, Juniper admitted from the start that health ailments would make his weekend a test of endurance. Obviously, not the best meet for me, I've been racing under the weather all weekend so to speak, but have still managed to enjoy Darwin, Shaun stated.

Although not performing at their peak, the Juniper Team continued to improve throughout the meet with Race Three delivering their best results finishing in position seventeen.

With each race comes more experience, we're only a young team so next year we can only get faster Juniper said.

The competition in the Australian Carrera Cup is fierce with only one second covering the top fifteen cars in qualifying.

The Juniper Team is developing at every event, and for a new team with a driver in his first full season of Carrera Cup, they have a lot to be proud of said Team Manager Alistair Bye.

Unfortunately as we progress, so does the whole Carrera Cup category. Since last year we have had a number of top level champion drivers such as Steve Ellery and Paul Stokell join the series and they are not automatically at the front of the field either. This is a first class category of motorsport with first class drivers throughout the entire field. We know we can progress and we are committed to achieving bigger and better results in the future that will reflect our commitment. Bye says.

The Juniper Racing Team is looking forward to Round Four at their home track, Queensland Raceway on July 20-22.
