

### **JUNIPER HAS AN IMPRESSIVE FIRST MEETING AT ORAN PARK**

New to racing at the Oran Park track, Shaun Juniper started off the weekend with some consistent times and a fantastic lap time in Friday's practice sessions.

Juniper stated "I did a great time yesterday so I'm very happy with that as it's my first time here."

With the blue Juniper 997 Cup Car qualifying 21st with a further improved time of 1:11.0340, Juniper revealed "I know I've got some big chunks of time to make up but I know what needs to be improved".

It was this attitude in conjunction with skilful driving which saw Juniper pull off a brilliant pass on Kondouris onto turn two. This allowed the Juniper team to move up an incredible 7 places to finish the race with his best result to date, securing the 14th position.

"Everytime I go out there I'm learning new things so I'm comfortable with that". Juniper's impressive ability to navigate the Oran Park track today will ensure that the Juniper car will be one to watch tomorrow.
